

Patrick Toohey

Senior Lifecycle Marketing Manager · MarTech Specialist

pbtoohey@gmail.com · (614) 551-5834 · linkedin.com/in/patrick2e

Lifecycle marketer with 6 years of experience building and scaling high-impact CRM programs at the intersection of strategy, automation, and design. Expert in email-compatible HTML/CSS and end-to-end campaign ownership, from audience design and journey construction to experiment-based optimizations and new data integrations. Proven ability to ship martech infrastructure (platform migrations, design systems, AI tooling) while growing revenue-driving programs simultaneously.

EXPERIENCE

Upstart 2022 to Present

Lifecycle Marketing Specialist → Manager → Senior Manager

Program Ownership & Revenue Impact

- Manage **4 distinct lifecycle programs** (Leads, Reengagement, Repricing, and Disqualified) reaching **4-5M users monthly**, driving **\$30M in revenue in 2025** with a targeted 30% growth plan for 2026
- Stood up Upstart's **first lifecycle program for disqualified applicants**, a net-new channel with a TAM of 14M users
- Launched an experimental offline prequalification system for prior applicants, generating **\$1.2M in December revenue (80% incremental)**
- Introduced **AI-driven engagement scoring** to the expired applicant program, improving efficiency while keeping monthly spend flat; this yielded a **+50% revenue-per-user improvement from Q4'25 to Q1'26**

MarTech & Platform Infrastructure

- Led full platform migration from **Salesforce Marketing Cloud to Iterable**, rebuilding 80+ unique marketing flows without pausing active programs
- Programs grew **17% YoY in 2025** despite the majority of that year's bandwidth dedicated to migration
- Built a **bespoke no-code modular design system** (75+ unique modules) in Iterable to accelerate campaign production and maintain brand consistency
- Engineered a **campaign-agnostic design experimentation system** capable of testing creative changes across the full user base without disrupting live journeys
- Integrated **automatic compliance checks** into the marketing stack, keeping claims, disclosures, and regulatory reporting continuously up to date

Team Enablement & Documentation

- Authored a **30-page process guide** enabling L3-L5 lifecycle team members to independently build audiences, templates, and journeys
- Built two companion **AI agents** to surface documentation and troubleshoot platform questions in real time, as well as automatically translate email designs into paste-ready Iterable snippets

Rhove 2020 to 2022

Marketing Intern → Marketing Associate

- Sole owner of Rhove's **Braze CRM environment**; managed 50+ unique marketing and transactional campaigns end-to-end
- Grew and engaged an international base of **15,000+ leads and users** across email, digital ads, physical collateral, and organic content

- Handled full campaign lifecycle—storyboarding, design, copywriting, build, and optimization—for a 2-person marketing team at a 12-person startup
-

CORE SKILLS & STACK

Lifecycle Strategy

- Audience segmentation, journey design, lifecycle stage mapping, A/B and multivariate testing
- Program P&L ownership, incremental revenue measurement, retention and reactivation strategies

MarTech Platforms

- **Iterable** (advanced) — journey builder, templates, experimentation, API integrations
- **Braze** (advanced) — canvas architecture, segmentation, transactional + marketing flows
- **Salesforce Marketing Cloud** (advanced, Specialist-certified) — journey builder, AMPscript, data extensions
- **HighTouch** (advanced) — audience builder, frictionless connection between CDP and Iterable
- **CDP** (hosted in Databricks) — targeting with raw data, data warehouse integration (behavioral signals, complex credit profiles, supplemental third-party sources)

Design & Build

- Specialize in modular design systems for scalable campaign production (Figma → CRM)
- **Figma** — component design, wireframing, modular design systems
- **HTML/CSS** — expert-level email-compatible builds; pixel-perfect cross-client rendering

Data & Analytics

- **SQL** — intermediate composition; confident reading and interpreting data science queries
- Full-funnel analysis, incremental lift measurement, engagement scoring, and test design + measurement
- Compliance data integration (claims, regulatory disclosures, external reporting, Adverse Action Notices)

AI & Tooling

- Iterable AI suite integrated into lifecycle decision logic
 - Glean and Claude agent development for internal documentation and team enablement
-

EDUCATION

Colgate University *Hamilton, NY — May 2020*

Bachelor of Arts — International Relations & Spanish

- Graduated magna cum laude, cumulative GPA 3.62/4.00
- Dean's Award for Academic Excellence (Fall 2016 – Spring 2020)
- Awarded High Honors by the International Relations department for senior thesis on 2004 EU expansion
